CURRENT SITUATION AND ITS EFFECTS

Various departments in the City use the Accela Civic Platform as their Business License and Permitting system. The Information Technology Department seeks to extend its contract with Gray Quarter in order to support maintenance, upgrade, and provide technical expertise and support for the Accela Civic Platform.

Currently, Information Technology is engaged in a major upgrade of the Accela Civic Platform. This upgrade moves the City to a supported software version that provides feature enhancements and addresses key security vulnerabilities. In addition, the upgraded version supports newer browsers that streamlines the user experience. Gray Quarter provides installation assistance, upgrade expertise, training support and other project management related support for this upgrade project.

With the additional funds Gray Quarter will continue to assist with the current Accela upgrade, future upgrades, production support and provide support in key projects.

BACKGROUND

Gray Quarter is an Accela Certified Services Partner and Accela Technology Alliance Partner that specializes in Accela software, with proven experience in many challenging projects.

Gray Quarter has provided support to the city via Accela professional services as a sub-contractor since 2018. In 2019, they were the Accela Professional services sub-contractor to lead the effort to implement Business License renewals online.

In 2020, the City established a direct contract with Gray Quarter to assist with Accela Civic Platform efforts on an as-needed basis. Some of the key efforts in which Gray Quarter has assisted the City include updating the Finance Cash Receipt (CR) interface file to allow for accurate reporting of revenue when overpayments are received and assistance with completion of the data bridge that sends refund data from Accela directly to FUND\$. Gray Quarter has also assisted with the design and configuration management for Ad Hoc reports, and on-going support of Business Licensing module for Rental of Real Property.

In 2021, the City and Gray Quarter enabled online renewal for an additional 10 license types completing the business license online renewal project for the City.

In 2022 Gray Quarter completed the Tax computations changes for Street vendors to use Gross Receipts, delivered the initial draft of a new delinquent business license renewal notification process, and worked with IT to specify new infrastructure for Accela Version 22 and install new instances of Development and Test on the latest version of the Accela Civic Platform.

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE IMPACTS

The City will help reduce carbon emissions by allowing most, if not all, business license processes to be performed online thereby reducing traffic into the City in keeping with the City's Climate Action Plan. This helps with the Digital Strategic Plan goals of providing more online services.

RATIONALE FOR RECOMMENDATION

Gray Quarter, Inc. is an Accela-Certified services partner. They have supported the City in various projects. Gray Quarter has performed specialized process analysis, configuration, and scripting to support the City's online business license system and various other IT and Finance projects. As a result, Gray Quarter has in-depth knowledge of City business processes and data architecture that would take other vendor years to acquire.

ALTERNATIVE ACTIONS CONSIDERED

Staff considered completing projects and enhancements, gaining expertise by investing more time in learning without professional services; however, doing so would lead to an inefficient allocation of staff resources and significantly extend implementation timelines.
