33. Commission Referral: Recommendation to Install an Outdoor Public Warning System (Sirens) and Incorporate It Into a Holistic Emergency Alerting Plan
(Reviewed by the Public Safety Committee)

From: Disaster and Fire Safety Commission

Recommendation: We recommend that City of Berkeley immediately begin the process to purchase, install, and maintain an outdoor public warning system (sirens) as a supplement to other alert and warning technologies within our boundaries and coordinated with abutting jurisdictions and Alameda County. This installation should be accompanied by the following: -ongoing outreach and education so that the public will understand the meaning of the sirens and what to do when they hear a siren; - development of a holistic alert protocol, incorporating sirens as an additional option among the available suite of alerting methods; -staff training and drills on alerting procedures; -development of a testing and maintenance plan that will ensure the system is fully operational while avoiding unnecessary or excessive noise pollution in the City; -outreach to deaf and hard of hearing residents to encourage them to opt-in for alerting that meets their communication needs. This may include distributing weather radios or other in-home devices with accessibility options for people with disabilities.

This recommendation does not specify the number, type, or location of sirens; City staff should determine the most cost-effective system that achieves the goals described in this recommendation. This may include either mobile or fixed-location sirens.

Financial Implications: See report

61a. **Health Study to be Conducted by Division of Public Health to Gather Data on Health Conditions, Health Disparities and Mortality Rates of Berkeley's Homeless**

From: Homeless Commission

Recommendation: The Homeless Commission recommends that Council direct that the City Division of Public Health conduct a study gathering data on health conditions, health disparities and mortality rates of Berkeley's homeless for the last five years.

Such recommendation includes compiling information on Berkeley's homeless including persons living in shelters, in vehicles, on the streets, and any other location not intended for human habitation and who move between these settings. Such study shall include data on specific health conditions and make a comparative analysis between the homeless and Berkeley's general population and shall include demographics such as race, age, gender and known disability. Such study shall include how long the homeless person has lived on the streets and/or in shelters and attempt to track back the nature of their various residences for five years as is feasible.

Data for mortality rates among Berkeley's homeless shall also be gathered for the last five years. The mortality rates shall be examined for persons living in shelters, in vehicles, on the streets and any other location not intended for human habitation. The cause of death shall be identified and demographics such as race, age, gender and known disability compiled. Tracking the housing status of the persons, for the last five years, shall be identified as is feasible. If feasible, the length of residence in Berkeley shall be identified.

A comparative analysis with the general population shall be made. To the extent feasible and within legal constraints, whether or not the deceased individual was under the care of a medical provider shall be identified. All personal information should be redacted so as to comply with federal, state and local laws.

Recommendations shall be made to improve the health conditions of the homeless and decrease the mortality rates of homeless persons. Recommendations, within the City Division of Public Health's purview shall be made initially by them and return to Council where further recommendations can be made. Council shall provide the opportunity for the Homeless Commission, any other relevant commission, and the public to weigh in on recommendations following the release of the data/study.

61b. Companion Report: Health Study to be Conducted by the Public Health Division to Gather Data on Health Conditions, Health Disparities and Mortality Rates of Berkeley's homeless

From: City Manager

Recommendation: The Homeless Commission's recommendation to conduct a study on the health conditions, disparities, and mortality rates of Berkeley's homeless population addresses important issues within the City. Staff greatly appreciate the Commission's continued advocacy for the unhoused and their suggestions to gather as much relevant information as possible. Therefore, staff recommend asking Alameda County to explore the feasibility of recording homelessness as a data point in death records and/or making investments to begin tracking this information locally.

Financial Implications: None

62a. Conducting an Analysis of Increasing Inclusionary Housing over Affordable Housing Mitigation Fee

From: Homeless Commission

Recommendation: The Homeless Commission recommends that Council direct or refer to the City Manager, as Council sees fit, to conduct an analysis of the current inclusionary housing/affordable housing mitigation fee structure and return to Council with the benefits/detriments of the following options:

1. Requiring inclusionary housing over the affordable housing mitigation fee;
2. Requiring an increased number of inclusionary units when the inclusionary option is utilized;
3. Providing incentives to developers to elect the inclusionary unit option over the affordable housing mitigation fee option;
4. Identifying designated geographical boundaries or Council districts which would require only inclusionary housing in new developments and not permit the affordable housing mitigation fee in those geographical boundaries or Council districts; and
5. As to all options, strengthening the ordinance for inclusionary units so as to mitigate homelessness by insuring access to units for extremely low-income persons and persons experiencing homelessness.

The Homeless Commission recommends that an analysis include updated data on the number of developments initiated in the last three years showing the number of inclusionary units added and the amount of affordable housing mitigation fees paid and to the extent feasible, a ten year projection of the numbers of planned developments and an analysis of the potential number of inclusionary units or amount of affordable housing mitigation fees anticipated. An analysis of various options should also consider a sunset clause so that amendments to current law would require revisiting the impact of any changes.

64a. Expansion of Adeline Corridor Plan to Include Housing in Private Component for Extremely low-Income Persons

From: Homeless Commission

Recommendation: The Homeless Commission recommends that the City Council identify a means to expand housing within the private housing component of inclusionary housing to include a set-aside for extremely low-income persons. The Commission recommends that be done either through retaining a consultant to conduct a nexus study to include extremely low-income housing in inclusionary housing, as to the Adeline Corridor, or by staff internally conducting that study so that inclusionary housing, within the Adeline Corridor, can be expanded to include a set-aside for extremely low-income persons.

Financial Implications: See report

Contact: Peter Radu, Commission Secretary, (510) 981-5400

64b. Companion Report: Expansion of Adeline Corridor Plan to Include Housing in Private Component for Extremely low-Income Persons

From: City Manager

Recommendation: If Council believes it is needed, refer to the FY20 November budget process the Homeless Commission's recommendation to hire a consultant for a nexus study to include extremely low-income housing in the Adeline Corridor Plan's inclusionary housing requirements. A cost estimate will be provided at the time of referral.
