CONSENT CALENDAR

June 14, 2022

To: Honorable Mayor and Members of the City Council
From: Youth Commission
Submitted by: Samuel Kaplan Pettus, Chair, Youth Commission
Subject: Adding a youth member to the Environment and Climate Commission

RECOMMENDATION

That Council adds a seat on the Environment and Climate Commission for a person under 18 years of age; and that Student Director on the Berkeley Unified School Board nominates the new youth commissioner and that the full board confirms the appointment.

FISCAL IMPACTS OF RECOMMENDATION

No fiscal impact.

CURRENT SITUATION AND ITS EFFECTS

Currently, the only youth involvement in city policymaking is the Youth Commission. The Youth Commission is an important and powerful voice for youth in our city. Youth are affected by every policy decision made by the City Council, in particular, decisions to do with climate change. Youth will be affected by the decisions we make now for the rest of their lives, but are not seriously involved in making those decisions. The current Climate and Environment Commission has no designated seat for youth. This means that the commission lacks the valuable lived experience and perspectives of youth. It is imperative that youth's voices are considered when addressing climate change.

BACKGROUND

In 1979 the City Council, by establishing the Youth Commission, recognized the importance of elevating the voices of young people in the city policy process. The enabling legislation of the Youth Commission states that the goal of the commission is to "give youth a voice in effecting City policy and services". Since that time, the Youth Commission has done its best to navigate city policy bureaucracy and elevate the needs of youth in our city. However, youth voices have been lacking in the majority of city policy decisions.

ENVIRONMENTAL SUSTAINABILITY AND CLIMATE CHANGE

There are no direct environmental impacts of this proposal. However, youth have the most to lose from the future of our environment and decisions about sustainability, and hence should have a seat at the table when discussing environmental policy.

RATIONALE FOR RECOMMENDATION

The proposal would expand youth involvement in city policymaking and better fulfill the vision laid out in the enabling legislation of the Youth Commission. The Environment and Climate Commission will benefit from the youth perspective. The youth member will help the commission understand the needs and capabilities of youth in our city. The youth member will help the commission to harness the power of young people's experiences to better fulfill their mission. Young people will need to be part of our city's, and our world's, long-term environmental approach. This young person should not be tokenized but should be a full voting member of the commission. The commission should be required to fully engage youth in their planning process. The only way to ensure youth have a fair voice on the commission is if they are treated with respect and dignity by being allowed to fully participate and vote on all matters before the commission. If the city fails to give the youth member of the commission a full vote they risk the commission ignoring young people's perspectives on this critical issue.

We recommend that the Student Director on the Berkeley Unified School Board nominates the youth commissioner and that the full board confirms their choice. This will better ensure that the representative is in line with the interests of the youth and reduce the risk of over politicization of the appointee.

ALTERNATIVE ACTIONS CONSIDERED

We also considered the City of Berkeley Youth Commission appointing the new youth commissioner to the Environment and Climate Commission. We would support this if council feels it is a better approach.
